INTERIM RESULTS ANNOUNCEMENT
FOR THE SIX MONTHS ENDED 30 JUNE 2008

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the main board and no assurance is given that there will be a liquid market in the securities traded on GEM. The principal means of information dissemination on GEM is publication on the internet website operated by the Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of this announcement. This announcement, for which the directors (the “Director”) of Computech Holdings Limited (the “Company”) collectively and individually accept responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange (“GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

The increase in turnover and net profits was mainly due to renewal of certain IT services with new pricing basis. It was also attributable to the fulfillment of certain sizeable orders for RFID systems and mobile computing equipment which were confirmed last year.

Financial resources and liquidity

As at 30 June 2008, the total assets of the Group were approximately HK\$14,021,000 (at 31 December 2007: HK\$18,305,000) including cash and bank deposits of approximately HK\$4,795,000 (at 31 December 2007: HK\$3,124,000) and debtors, deposits and prepayments of approximately HK\$2,166,000 (at 31 December 2007: HK\$8,221,000).

The Group's non-current loan was fully repaid for the period (at 31 December 2007: HK\$2,256,000). Save as disclosed above, the Group did not have any other borrowings during the period under review.

Other benefits include contributions to statutory mandatory provident fund scheme and medical scheme to its employees in Hong Kong and the statutory central pension schemes to its employees in the PRC.

Prospects

The IT services business is highly competitive with many challenges as well as opportunities. Call center services and manpower outsourcing services are the two business lines in the Group which present potential for future growth, whereas warranty service outsourcing continues to suffer low profit margin. We will continue to monitor the progress of these business units and make necessary adjustments to our overall business strategy as and when necessary.

CODE ON CORPORATE GOVERNANCE PRACTICES

In addition, the director will abstain from voting on the relevant board resolution in which he has interest.
