REASONS FOR THE INVESTMENT

The Group is principally engaged in provision of IT service and money lending business in Hong Kong. The Board considered that it is not promising in the forthcoming year and intends to diversify its business in order to broaden the revenue base and mitigate the impact from such termination.

The Board consider that there is a significant demand in good quality fishes in Asian markets. In light of the terms of the Investment, the Period, the Profit Sharing ratio and the Minimum Profit Guarantee, given the current business environment, the Board is of the view that the Investment will provide a good diversification opportunity, and an additional stable income stream and reasonable returns to the Group.

On the basis that there is no further capital injection, the size of the Investment is optimal to the Group. In addition, the Company has the right to renew the Investment Agreement on the same terms and conditions as it considers fit, which would provide flexibility to the Group to determine the further investment opportunity.

The Directors consider that the transaction contemplated by the Investment Agreement is on normal commercial terms and the terms of the Investment Agreement are fair and reasonable and are in the interests of the Company and its shareholders as a whole.
