REASONS FOR THE EXTENSION OF MATURITY DATE

Starting in 2013, the Group has been seeking business and investment opportunities to develop its business operations into the ecological and environmental protection industry. As disclosed in the interim report of the Group for the six months ended 30 June 2016, the Group has been expanding its solid waste management businesses, including domestic waste treatment, landfill management and waste sorting and renewable resources businesses. As disclosed in the annual results announcement of the Company for the year ended 31 December 2016 dated 30 March 2017, the Company has sought for and identified a number of relevant potential projects for its ecological environmental protection business in various regions across the PRC, and has been actively engaged in the negotiation with the governmental and corporate clients for detail terms thereof, so as to facilitate the implementation of the plans. The Further Extension effectively allows the Group to refinance its debts under the Convertible Bonds under the same terms (except there is no rights to further extension) for another one year. In addition, the Further Extension will provide flexibility to the Group's deployment of its financial resources to fund its operation and development as mentioned above as well as to plan its

working capital requirements. In the absence of the Further Extension, the Company will need to deploy its cash reserves for the redemption of the Convertible Bonds on maturity. Accordingly, the Directors consider that the Further Extension is in the interests of the Company and its Shareholders as a whole.

GENERAL

The Company is an investment holding company. Its subsidiaries are principally engaged in ecological garden and landscape business and ecological environmental protection business.
